GRAND JURY FINDS 20 INDICTMENTS

Charges Range From Non-Support to Assault With Intent to Kill.

Twenty indictments, involving twenty-six persons, were returned yesterday by the grand jury charging offenses ranging from nonsupport to assault with intent to kill.

In returning an indictment charging robbery against Ella Brown, Florence Branson, Minnie Washington, Elizabeth Doling and Martha Gibson, all colored, the grand jury ignored preliminary Police Court hearings, in which all the women except Ella Brown, were acquitted. The accused are alleged to have entered Martin Carter, an aged colored man, into a house on Four-and-a-half street southwest and robbed him of \$175. Due to Carter's defective eyesight, he was unable to identify any of the defendants in Police Court, but the grand jury also indicted the others. Carter lives at 1335 Half street southeast.

Roy Allen, colored, who is alleged to have held up William J. Lomax, 1311 Corcoran street northwest, near the Georgia avenue car-barn, on December 24, and robbed him of \$25, was indicted on charge of robbery.

POLICE OF DISTRICT PRAISED BY CHIEF JUSTICE M'COY

Urges Citizens to Do Their Part in Upholding Department Work.

Chief Justice McCoy pleaded with Washington to aid the work of its police department and to remember that "no city will ever have enough policemen," as he received a list of twenty-six indictments from the retiring grand jury yesterday.

"We must remember that the money to pay the police force comes only indirectly from the pockets of the taxpayers. Congress has a big part in the proceedings, but I realize Congress is willing to do the right thing and we must do our part," Chief Justice McCoy told the jurymen.

"I want to say that we have in my opinion as fine a lot of policemen, all clean cut and intelligent, who you will find in any city in the country. I have been to the Capital to several times and I do not find the opposition to doing right by the District that is generally supposed to exist there," the Chief Justice declared.

FOOD SHOW GIVES NEW MILK SHAKE

Rosa Taylor Says Cooking Hot Biscuits Is Easy For Her.

Quick milkshakes can be made at home through the use of a new product being displayed for the first time in Washington at the National Food Show and Household Exposition at Convention Hall.

This product is a heavy, sweetened chocolate syrup that comes in a bottle of milk and shaken up makes a chocolate milkshake in rapid-fire time.

Everyone who visits the show is commenting on the hot biscuit made by Rosa Taylor, colored mammy employed by one of the four exhibitors. She says she never gets tired. Everything in the cooking line comes easy to her, she says. Rosa rolls the dough and bakes the biscuit in full sight of everyone.

Today will be Northeast Grocers' Day at the show for those grocers east of Eighth street.

Isaac Gans, prominent civic leader, last night declared that the show is one of the most successful ever held here. "The attendance is magnificent, the exhibitors are all high-grade, and the patrons are of fine quality," he said.

FIFTEEN Y TEAMS START OUT TODAY TO RAISE \$53,200

150 Workers Enlist in
Seven-Day Campaign
To Meet Needs.

One hundred and fifty Y. M. C. A. workers will start out this morning to raise \$53,200 for that organization—\$21,500 to meet current expenses and \$31,700 for permanent improvements, including a site for the boys' camp and the curtailment of the mortgage debt.

A meeting of the captains and team workers was held last night at Wallis' restaurant, when final plans were made. The campaign is to be one of personal solicitation, and is to last seven days. Five thousand selected persons will be visited. There will be no indiscriminate solicitation. Regular subscribers, it is believed, will increase their contributions between \$5 and \$10 per cent, because of the permanent improvements contemplated.

This is the first time in twelve years that the Washington Y. has asked the public for more money than enough to meet current expenses, but the permanent improvements and the site for the boys' camp, as well as the curtailment of the mortgage, makes the appeal imperative.

The captains are: L. M. Betts, R. D. Burbank, Charles F. Crane, Victor Deyber, William K. Hartung, Colin H. Livingston, W. M. Lodge, N. M. Minnie, George W. Offutt, Jr., Edgar D. Shaw, George Curtis Shinn, Frank E. Webber, Maj. Guy Withers, J. T. Worthington and Frank Wright.

Telephone Calls Swamp Sullivan

New Police Chief Buried Under Deluge of Congratulations.

Having answered the telephone 305 times between the time he arrived home after work last Saturday and until he was back on the job yesterday, Daniel Sullivan, newly-appointed superintendent of the Metropolitan Police, believed he was almost fully congratulated.

However, no relief is yet in sight. The administrative office is swamped with mail addressed to the new chief. The office telephone rang continually yesterday bringing more congratulations. The desks are covered with flowers from friends.

The official statistician of the police department estimates that Maj. Sullivan has received 400 telephone calls since accepting his new duties. He has received more than 200 visitors and has answered at least 200 letters.

One of the congratulations came by telephone from the present manager of Petersburg, Va., Louis

Results in Half the Usual Time!

Ordinary yeast vitamin preparations have in many cases been known to bring good results. But thousands know that Ironized Yeast, the scientifically correct vitamin tonic treatment, brings results often in just half the usual time!

One reason for this marked superiority is that Ironized Yeast, besides containing just the right amount of all three essential vitamins, contains a type of yeast which has positively no equal as a reconstructive agent—a yeast which is cultured expressly for medicinal purposes, and which is entirely different from the yeast found in ordinary "yeast tablets."

Yeast Best When Ironized

But even more important than this is the fact that this yeast has been ironized—or treated through a scientific process with a special form of easily assimilated organic iron, similar to the iron found in spinach. When yeast is ironized in this manner it is found that results are not only more permanent, but are secured just twice as quickly.
